Attention: Alan Carroll

Gentlemen:

Reference is made to your memorandum dated July 16, 1981, concerning Agency design requirements and criteria for the Master Plan. The Agency concurs with your synopsis of requirements with the following changes:

1. Paragraph 3 should read "gross ratio not less than 75 percent."
2. In paragraphs 4 and 6, change "separate" to read "segregated." By this we mean these facilities may be attached to a main building if the operation can be properly segregated.
3. In paragraph 5, delete "bank" and substitute "drugstore."
4. In paragraph 9, delete reference to the visitor's center.

The Agency will respond to additional program questions which you posed in our 21 July telephone conversation.

Sincerely,

Building Planning Staff
